

SCNZ 20 YEAR LOGO

The SCNZ 20 Year logo for email signatures is available in either the “Proud Member” or “Founding Member” version, depending on what is applicable. It may be used in the four approved colourways shown and must not be reproduced in any other colours.

The logo must only be displayed on a white or light background, with the exception of the white logo. Minimum clear space must be maintained around the logo, equal to the width of the “2” as illustrated.

Please adhere to the minimum size guidelines for the logo which is 18mm wide for print use and 58px wide for on-screen use.

Official logo files and formats can be obtained directly from SCNZ.

SIGNATURE GUIDES

The SCNZ 20 Year logo could be positioned alongside the other certification logos beneath your company logo and contact details.

The certification logos must be smaller than the company logo and should follow the minimum clear space guidelines specified for the SCNZ logo. A similar amount of spacing should be maintained between each logo to ensure the layout does not appear crowded.

Dividing lines may be used to separate the certification logos from the rest of the email signature for clarity and visual balance.
